By Senator O'Sullivan:

Senate Resolution No. 149

Relating to weights and measures

WHEREAS, In our modern society wherein business is generally conducted on a monetary basis and not on a barter basis and where business is negotiated many times over great distances, the establishment of clear, uniform standards of weights and measures is essential to commerce and to our economy; and

WHEREAS, During the past 10 years the sale of commodities in package form has increased to the extent that approximately 95 percent of all commodities purchased by consumers are in package form and where formerly two or three hundred packaged items were on grocery shelves the supermarket of today has over 7,000 packaged commodities; and

WHEREAS, Rapid technological changes and development of modern packaging techniques has resulted in the obsolescence of many of the weights and measures statutes and has pointed out the inadequacies of the regulation in this area; and

WHEREAS, Inadequate regulation of weights and measures permits unscrupulous individuals to compete unfairly with other manufacturers and in many cases deceives the unsuspecting purchaser or consumer who is prevented from receiving the maximum benefit from his expenditures and the benefits of a competitive market are dependent, in large measure, upon informed consumers who are able to judge the relative merits of similar products; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate Rules Committee is directed to assign to an appropriate interim committee the study of modernizing California's weight and measure and packaging laws and to direct the com-

mittee to report thereon to the Senate by the fifth legislative day of the 1965 Regular Session of the Legislature.

By Senator Murdy:

Senate Resolution No. 151

Relative to Chloramphenicol

WHEREAS, The Senate Fact Finding Committee on Public Health and Safety has recently conducted a thorough investigation of the subject of use of chloramphenicol and the causal relationship between such use and death from aplastic anemia; and

WHEREAS, The committee concluded that a need for additional legislation is not now indicated, but that important contributions toward improved practices can be made by interested private associations and public agencies; now, therefore, be it

Resolved by the Senate of the State of California, That, pursuant to the recommendations of the Senate Fact Finding Committee on Public Health and Safety, the Senate urges as follows:

1. That the California Medical Association, the American Medical Association, the California State Dental Association, and the Southern California State Dental Association take immediate steps to better inform and to better police their members directly and through their various county units in regard to the drug chloramphenicol; that a program of education be undertaken, with proper warnings against use of this drug for minor infections, as specified by the Food and Drug Administration; that a program to improve the reporting of aplastic anemia cases, to emphasize the need for more thorough and more frequent blood and bone marrow checks, be undertaken; that the C.M.A. and A.M.A. investigate and report on any and all prescription drugs of a dangerous or toxic nature at regular intervals, both to physicians and pharmacists;

2. That steps be taken by the medical profession and by the pharmacists to provide that there shall be no refill of any prescription of chloramphenicol unless the patient and the physician consult and the physician writes a new prescription; that, where called for, the physician should be obligated to repeat laboratory testing of the patient before a new prescription is written;

3. That the State Department of Public Health should be authorized to keep a closer check on all antibiotic drugs which are known to have possible toxic reactions, and should proceed as necessary in order to protect the public interest in all phases of the testing, prescribing and use related to such drugs; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the Secretary of the California Medical Association, the Secretary of the American Medical Association, the Secretary of the California State Dental Association, the Secretary of the Southern California State Dental Association, the Secretary of the State Pharmaceutical Association, the State Director of Public Health, and the President of the State Board of Pharmacy.

God, may we begin and end this day with You. AMEN.

By Senator O'Sullivan:

Senate Resolution No. 105

Relative to navigation on the Sacramento River

WHEREAS, The first record of a steamboat traveling between Sacramento and Red Bluff on the Sacramento River goes back to 1849; and

WHEREAS, This marked the beginning of a colorful and romantic era, which has since passed; and

WHEREAS, During that era, the river boats were an important and exciting part of life along the Sacramento River, and, according to the stories of oldtime Californians, were, in many instances, floating paradises whose arrival was eagerly anticipated in each of the many stops along the river; and

WHEREAS, Now, more than a half a century later, there is once again a continued and growing economic need for works and facilities to permit the extension of waterborne commerce on the Sacramento River to Red Bluff, California, the head of navigation on this important stream; and

WHEREAS, Potential traffic in an improved stream channel includes inbound bulk cargoes such as petroleum products, as well as outbound shipments of grain, safflower seed and other bulk agricultural products; and

WHEREAS, The operation of Trinity Dam in diverting water from the Trinity River to the Sacramento will result in increased flows in the proposed navigational channel; and

WHEREAS, Studies by the California Department of Water Resources indicate additional storage dams will be built as part of the California Water Plan in the future on the west side of the Sacramento River which also will contribute to additional flows in the Sacramento; and

WHEREAS, The imminent completion of the Sacramento Deep Water Channel to Sacramento will increase the demand for water-borne shipments to points north of Sacramento; and

WHEREAS, A study by the Corps of Engineers, U.S. Army, in 1955, which indicated that costs of such a navigation project exceeded economic benefits, did not take into account many of the factors cited above; now, therefore, be it

Resolved by the Senate of the State of California, That the Corps of Engineers, U.S. Army, be memorialized to conduct further studies, taking into account recent and prospective factors and developments, of the costs and economic benefits of a navigation channel in the Sacramento River between Sacramento and Red Bluff open to barge traffic; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the Secretary of the U.S. Department of the Army, to the Chief, Corps of Engineers, U.S. Army, to Members of the U.S. Senate and House of Representatives elected from California, and to the chairmen, respectively, of the Committees on Public Works of the U.S. Senate and of the House of Representatives.

Senator Collier moved the adoption of the following amendment:

Amendment No. 1

On page 1 of the printed bill, strike out lines 6 to 20, inclusive; and strike out page 2, and insert

"1501. The Legislature recognizes the substantial obligation undertaken by a privately owned public utility which is franchised under the Constitution or by a certificate of convenience and necessity to provide water service in that the utility must provide facilities sufficient to meet the needs of those in its area who may request service. These facilities are usually designed and constructed to meet the requirements of future demands. At the same time, the rates that may be charged for water service by a regulated utility are strictly fixed by the Public Utilities Commission so as to prevent any rapid recovery of capital costs.

The Legislature finds and declares that the potential threat of the unregulated competition by public agencies often deters private utilities from obtaining a certificate or extending their facilities to provide in many areas a water supply essential to the health and safety of its citizens.

The Legislature further finds and declares that it is necessary for the public health, safety, and welfare that privately owned public utilities franchised and regulated by the State be protected against damages that they may suffer by reason of public entities intruding in their service areas.

1502. (a) As used in this chapter, "political subdivision" means a county, city and county, city, municipal water district, county water district, irrigation district, public utility district, or any other public corporation.

(b) As used in this chapter, "service area" means an area served by a privately owned public utility in which the facilities have been dedicated to public use and in which territory the utility is required to render service to the public.

(c) As used in this chapter, "operating system" means an integrated water system for the supply of water to a service area of a privately owned public utility.

(d) As used in this chapter, "private utility" means a privately owned public utility providing a water service.

1503. The Legislature finds and declares that whenever a political subdivision constructs facilities to provide or extend water service, or provides or extends such service, to any territory being served, or required to be served by a private utility with the same type of service, such an act constitutes a taking of the property of the private utility for a public purpose to the extent that the private utility is injured by reason of any of its property employed in providing the water service being made inoperative, reduced in value or rendered useless to the private utility for the purpose of providing water service to the territory, and such taking shall be compensable under Section 14 of Article I of the Constitution of California.

1504. Just compensation for the property so taken for public purposes shall be as may be mutually agreed by the political subdivision and the private utility or as ascertained and fixed by a court of competent jurisdiction pursuant to the laws of this State relating to eminent domain.

Whenever the compensation by a political subdivision under this section is an amount equal to the just compensation value of all the property of the private utility in the operating system that the private utility employs in providing water service to the territory, the political subdivision may, by resolution, provide for the acquisition of all such property.

Before a political subdivision shall engage in activities set forth in Section 1503, it shall pay just compensation for the property to be so taken for public purposes.

1505. The provisions of Section 1503 will be applicable to any private utility before such utility constructs facilities to provide or extend water service or provides or extends such service to any territory theretofore served by a political subdivision with the same type of service.

1506. As used in this chapter, "private utility" includes a mutual water company. In its application to mutual water companies, this chapter affects and relates only to the property, or portion of any property, of a mutual water company that is employed by the company in providing water service in or for a territory that is actually being provided with water service by the company when a political subdivision constructs facilities to provide or extend water service or provides or extends such service to the territory, and that territory shall constitute the "service area" of a mutual water company as used in Section 1502."

Amendment read and adopted.

Bill ordered printed, and re-referred to Committee on Public Utilities.

RESOLUTIONS

The following resolutions were offered:

By Senator Christensen:

Senate Resolution No. 176

Relating to the creation of a national park in the redwood area

WHEREAS, The Secretary of the Interior, Stewart L. Udall, has announced that he will soon propose a new national park covering a large redwood area in Northern California, which will embrace a whole watershed area; and

WHEREAS, The people of California welcome the nationwide recognition of the scenic splendors of its redwood groves and encourage their dedication to the use and enjoyment of all of the people of the United States; and

WHEREAS, The outstanding manner in which the federal government maintains and operates national parks such as the Yellowstone National Park and Yosemite National Park is a credit to our country and has commanded worldwide admiration and respect; and

WHEREAS, It is appropriate that a national park be established in the redwoods, site of the oldest living things; and

WHEREAS, the only groves of redwoods comprising a whole watershed suitable for the proposed park appear to be located in Humboldt County; and

WHEREAS, More than 20 percent of the land of Humboldt County is now in public ownership and the removal of additional areas from private ownership and the tax rolls would not only preclude further development and growth of the county, and impose an intolerable tax burden on the residents thereof, but also would pose a serious threat to its existing economy; and

WHEREAS, The State of California has in 1962 acquired some 18,000 acres in the Ball Creek Area within the watershed of the south fork of Eel River, of the value of over $1,150,000, in addition the 35,000 acres theretofore within existing state parks in said county, and thereby removed the same from the tax rolls of Humboldt County, and increased the tax burden upon the taxpayer of Humboldt County and of the Southern Humboldt Unified School District; and

WHEREAS, The creation of the proposed national park in lands now included within a state park would not only facilitate the dedication of the most desirable redwood groves for this purpose but would also avoid removing more lands from private ownership; and

WHEREAS, The acquisition and transfer of the present state parks by and to the United States for purposes of said national redwood park would relieve the State of California and the taxpayers thereof of the cost and responsibility for the further administration and operation thereof, without any disadvantages from the recreational standpoint; and

WHEREAS, The proposed national park or certain groves thereof could well be named in honor and memory of Dag Hammarskjold as a fitting memorial, thereby relieving fund-raising organizations including those known as the "Save the Redwoods" league and "Nature's Conservancy" in their efforts to raise money to acquire a redwood grove in Humboldt County in his honor; and

WHEREAS, Pursuant to Section 4433 of the California Public Resources Code, the State pays to each county in which lands have been acquired for state forests an amount equivalent to taxes levied by the county on similar land similarly situated in the county; and

WHEREAS, Section 1504 of the Fish and Game Code also requires that payments be made to counties by the State "in lieu" of taxes when income is derived from real property acquired and operated by the State as wildlife management areas; and

WHEREAS, Other states, including the State of New York, assist their counties in carrying their added burdens incident to the maintenance of tax-free state parks within their boundaries by making payments "in lieu" of taxes; and

WHEREAS, Various federal laws similarly provide for payments to counties including: Payments to counties of 25 percent of funds received from national forests for use in the county or counties in which the forest is located (Sec. 500, Title 16, United States Code); payments to counties of specified percentage of various grazing fees received under the Taylor Grazing Act (Sec. 315 et seq., Title 43, United States Code); and payment of certain percentage of money received from the sale of public land (Act of June 17, 1902 and other acts) and from the disposal of materials (including timber) on public lands (Sec. 603, Title 30, United States Code); and

WHEREAS, The payment of such payments "in lieu" of taxes is essential to enable the county to meet its obligations and to provide services necessary for its present population and those who would travel through the county to visit the redwoods; now, therefore, be it

Resolved by the Senate of the State of California, That Congress is urged to secure the lands necessary for the proposed national park by taking over only those present state park lands in the Humboldt County comprising the Humboldt Redwood State Parks in the watershed of the south fork of the Eel River; and be it further

Resolved, That provision be made for payments to the County of Humboldt "in lieu" of taxes in order to remove the inequity resulting from present loss of tax base, and assist the county in performing the added county services which will be required incident to the operation of the national park; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Member of Congress from the State of California, Stewart L. Udall, Secretary of the Interior, to James K. Carr, Under Secretary of the Interior, and to Orville Freeman, Secretary of Agriculture.

Resolution read, and referred to Committee on Rules.

By Senator Lagomarsino:

Senate Resolution No. 177

Relating to a study of Indian fishing and hunting rights

Resolved by the Senate of the State of California, That the Senate Rules Committee is directed to assign to an appropriate interim committee the study of the hunting and fishing rights of Indians, the problems in this area created by federal laws which are designed to free Indians from federal control with the result that state laws become applicable and often prohibit the Indians from hunting and fishing in traditional ways, and the effect that conflicts over other matters, such as land

or timber rights, have on solving the hunting and fishing problems; with such interim committee to report to the Senate not later than the fifth legislative day of the 1965 Regular Session of the Legislature.

Resolution read, and referred to Committee on Rules.

"SECTION 1. Article 9.6 (commencing with Section 7045) is added to Chapter 5 of Part 1 of Division 2 of the Insurance Code, to read:

Article 9.6. Transformation

7045. The board of directors of any county mutual fire insurer that desires to commence proceedings for transformation of such insurer to a general mutual insurer shall adopt a resolution to that effect and submit to the commissioner a plan for effecting such transformation accompanied by an application for approval thereof and a fee of one hundred dollars ($100).

7046. After the commissioner has granted tentative approval of any such application, a county mutual fire insurer that shall meet the financial requirements applicable to other insurers under Article 3 (commencing with Section 699), Chapter 1, Part 2, Division 1, of this code, may by the majority vote of those of its policyholders voting at a meeting duly called for the purpose, elect to transform itself into a general mutual insurer as defined in Chapter 4 (commencing with Section 4010) of Part 1, Division 2, of this code and amend its articles of incorporation and bylaws to conform to, cover, and enjoy any or all of the provisions, powers, rights, and privileges of such a mutual insurer, notwithstanding the restrictions or limitations of any other provisions of law, including, but not limited to, Section 3206 of the Corporations Code. No such transformed county mutual fire insurer may engage in the business of life, title, workmen's compensation, mortgage, or mortgage guarantee insurance.

7047. The meeting called for the purpose of transformation, shall be preceded by a written or printed notice thereof and its purpose to each policyholder of record on the date of the notice, mailed at least 30 days before that date fixed for the meeting. The presence in person or by proxy of 5 percent of the policyholders entitled to vote shall constitute a quorum unless a higher percentage is required by the bylaws or articles of incorporation of the insurer.

7048. Such corporation shall be a continuance of the original corporation by the same name or by any other name approved by the commissioner. Such transformation, however, shall in no way annul, modify or change any of the existing contracts and liabilities of such corporation, and any and all such contracts and liabilities shall continue in force and effect the same as though such corporation had not transformed or qualified under this article, nor shall such transformation in any way prejudice, impede or impair any pending action or proceeding or any rights previously acquired. Certified copies of all proceedings in connection with such transformation, together with a certified copy of the articles of incorporation as amended, shall be filed with the commissioner.

7049. The provisions of Section 3206 of the Corporations Code shall not prohibit or restrict the consummation of the transformation permitted by this article.

7049.5. After the policyholders have elected such a transformation a county mutual insurer shall submit to the insurance commissioner for final approval of the transformation a certified copy of all proceedings together with an application for a new certificate of authority accompanied by the necessary filing fee. The said transformation shall become effective upon the occurrence of the last of the three following events: (1) the final approval by the insurance commissioner, (2) the issuance of a new certificate of authority, and (3) the filing of certified copies of amended articles of incorporation with the Secretary of State.

SEC. 2. Chapter 4 (commencing with Section 4010) is added to Part 1 of Division 2 of said code, to read:

CHAPTER 4. GENERAL MUTUAL INSURERS

Article 1. General Provisions

4010. A "mutual" insurer is an insurance corporation without capital stock owned by its policyholders collectively, who have the right to vote in the election of its directors.

4011. The provisions of Section 36 shall apply to domestic mutual insurers as well as foreign mutual insurers.

4012. Domestic mutual insurers incorporating or qualifying to transact any or all of the classes of insurance designated in Sections 100 through 124 and 700.01, shall be subject to all provisions of this code applicable to other incorporated insurers, except where otherwise provided. Mutual insurers shall not be required to have or issue capital stock or shares. The provisions of Section 1140 shall apply to such an insurer except that the provisions of the Corporation Law referring to shareholders or members shall be applied as though such provisions referred to the policyholders or members of a mutual.

4013. Each policyholder of a domestic mutual insurer, other than of reinsurance contract, is a member of the insurer during the period of insurance with all rights and obligations of such membership, and the policy shall so specify.

4014. Any person, government or governmental agency, state or political subdivision thereof, public or private corporation, board, association, estate, trustee or fiduciary may be a member of a mutual insurer.

4015. With respect to the management, records and affairs of a domestic mutual insurer qualified to transact any or all of the classes of insurance designated in Section 700.01, a member of such mutual insurer shall have the same character of rights and relationship as a stockholder has toward a domestic stock insurer subject to the provisions of this code.

4016. Each member of a domestic mutual insurer is entitled to one vote upon each matter coming to a vote at meetings of members.

4017. A member shall have the right to vote in person or by his written proxy filed with the corporate secretary not less than five days prior to the meeting. No such proxy shall be made irrevocable, nor be valid beyond the earliest of the following dates:

(a) The date of expiration set forth in the proxy; or

(b) The date of termination of membership; or

(c) Five years from the date of execution of the proxy; or

(d) Such time as may be specified in the bylaws.

4018. No member's vote upon any proposal to divest the insurer of its business or assets, or the major part thereof, shall be registered or taken except in person or by proxy newly executed and specific as to the matter to be voted upon.

Article 2. Directors

4020. The affairs of every domestic mutual insurer shall be managed by a board of directors consisting of not less than 5 directors nor more than 15 directors.

4021. Directors shall be elected by the members of a domestic mutual insurer at the annual meeting of members. Directors may be elected for terms of not more than five years each and until their successors are elected and have qualified, and if to be elected for terms of more than one year, the insurer's bylaws shall provide for a staggered term system under which the terms of a proportionate part of the number of the board of directors shall expire on the date of each annual meeting of members.

4022. A director of a mutual insurer shall be a policyholder thereof.

4023. As to an insurer operating as an authorized insurer only in the State of California, a majority of the members of the insurer's board of directors shall be citizens of and shall actually reside in this State.

Article 3. Management and Exclusive Agency Contracts

4030. No domestic mutual insurer shall hereafter make any contract whereby any person is granted or is to enjoy in fact the management of the insurer to the substantial exclusion of its board of directors or to have the controlling or pre-emptive right to produce substantially all insurance business for the insurer, unless the contract is filed with and approved by the commissioner. No such contract shall be effective unless and until approved by the insurance commissioner. Such approval shall be obtained by filing application for approval with the commissioner accompanied by a one-hundred dollar ($100) fee. Any disapproval shall be delivered to the insurer in writing, stating the grounds therefor.

4031. Any such contract shall provide that any such manager or producer of its business shall within 90 days after expiration of each calendar year furnish the insurer's board of directors a written statement of amounts received under or on account of the contract and amounts expended thereunder during such calendar year, including the emoluments received therefrom by the respective executors, officers, and other principal management personnel of the manager or producer, and with such classification of items and further detail as the insurer's board of directors may reasonably require.

4032. The commissioner shall disapprove any such contract if he finds that it:

(a) Subjects the insurer to excessive charges; or

(b) Is to extend for an unreasonable length of time; or

(c) Does not contain fair and adequate standards of performance; or

(d) Contains other inequitable provision or provisions which impair the proper interests of policyholders of the insurer.

4033. The commissioner may, after a hearing held thereon, withdraw his approval of any such contract theretofore approved by him, if he finds that the bases of his original approval no longer exist, or that the contract has, in actual operation, shown itself to be subject to disapproval on any of the grounds referred to in Section 4032 above.

Article 4. Loans

4040. A mutual insurer may borrow money to defray the expenses of its organization, provide it with surplus funds, or for any purpose of its business, upon a written agreement that such money is required to be repaid only out of the insurer's surplus in excess of that stipulated in such agreement. The agreement may provide for interest not exceeding six percent (6%) per annum, which interest shall or shall not constitute a liability of the insurer as to its funds other than such excess or surplus, as stipulated in the agreement. No commission or promotion expense shall be paid in connection with any such loan.

4041. Money so borrowed, together with the interest thereon, if so stipulated in the agreement, shall not form a part of the insurer's legal liabilities except as to its surplus in excess of the amount thereof stipulated in the agreement, or be the basis of any setoff, but until repaid, financial statements filed or published by the insurer shall show as a footnote thereto the amount thereof then unpaid together with any interest thereon accrued but unpaid.

4042. The issuance of any document evidencing any such loan shall require the commissioner's securities permit under Article 8 of Chapter 1, Part 2, Division 1 (commencing with Section 820).

4043. Any such loan to a mutual insurer or substantial portion thereof shall be repaid by the insurer when no longer reasonably necessary for the purpose originally intended; provided, that no such repayment shall be made which will reduce the net surplus below the amount required by this code. No repayment of such a loan shall be made by a mutual insurer unless approved in advance by the commissioner.

4044. This section shall not apply to loans obtained by the insurer in ordinary course of business from banks and other financial institutions, nor to loans secured by pledge or mortgage of assets.

Article 5. Dividends to Policyholders

4050. The directors of a domestic mutual insurer may from time to time apportion and pay or credit to its members dividends only out of that part of its surplus funds which represent net realized savings, net realized earnings, and net realized capital gains, all in excess of the surplus required by law to be maintained by the insurer.

4051. A dividend otherwise proper may be payable out of such savings, earnings, and gains even though the insurer's total surplus is then less than the aggregate of contributed surplus remaining unpaid by the insurer.

4052. The payment of any such dividends on a workmen's compensation policy shall be subject to the provisions of Section 11738 and for that purpose a mutual policy shall be considered to be a participating policy.

Article 6. Nonassessable Policies

4060. A domestic mutual insurer while maintaining unimpaired surplus funds not less in amount than one and one half times the minimum paid in capital stock required of a domestic stock insurer formed under this code for authority to transact the same kind or kinds of insurance, may, upon receipt of the commissioner's certificate so authorizing, extinguish the contingent liability to assessment of its members as to all its policies in force and may omit provisions imposing contingent liability in all policies currently issued. A fee of $100 shall accompany any application for such a certificate.

4061. The commissioner shall not authorize a domestic insurer to extinguish the contingent liability of any of its members or in any of its policies to be issued, unless it qualifies to and does extinguish such liability of all its members and in all such policies for all kinds of insurance transacted by it. No assessment shall be levied against any member or subscriber with respect to any nonassessable policy issued when the insurer had an unrevoked certificate to issue nonassessable policies.

4062. A foreign or alien mutual insurer may issue nonassessable policies to its members in this State pursuant to its charter and the laws of its domicile.

4063. The commissioner shall revoke the certificate of a domestic mutual insurer to issue policies without contingent liability if

(a) At any time the insurer's assets are less than the sum of its liabilities and the surplus required for such certificate, or

(b) The insurer, by resolution of its board of directors approved by a majority of its members, requests that the certificate be revoked.

4064. During the absence of such certificate the insurer shall not issue any policy without providing therein for the contingent liability of the policyholder, nor renew any policy which is then in force without endorsing the same to provide for such contingent liability.

Article 7. Insolvency

Article 10. Law Corporations

6160. A law corporation is a corporation which is registered with the State Bar of California and has a currently effective certificate of registration from the State Bar pursuant to the Professional Corporation Act, as contained in Part 4 (commencing with Section 13400) of Division 3 of Title 1 of the Corporations Code, and this article. If the State Bar finds that the corporation is duly organized and existing pursuant to the General Corporation Law, that each officer (except an assistant secretary or an assistant treasurer), director, shareholder and each employee who will render professional services is a licensed person as defined in the Professional Corporation Act, and that from the application it appears that the affairs of the corporation will be conducted in compliance with law and the rules and regulations of the State Bar, the State Bar shall upon payment of the registration fee in such amount as it may determine, not exceeding $ _____, issue a certificate of registration. The application shall be signed and verified by an officer of the corporation.

6163. The fee for filing such a report shall be fixed by the State Bar but shall not exceed $ _____. All reports shall be signed and verified by an officer of the corporation.

6164. The name of a law corporation and any name or names under which it may be rendering professional services shall contain and be restricted to the name or the last name of one or more of the present or former shareholders or of persons who were associated with a predecessor person, partnership, corporation or other organization or whose name or names appeared in the name of such predecessor organization.

6165. Each director and each officer of a law corporation except an assistant secretary and an assistant treasurer shall be a licensed person as defined in the Professional Corporation Act.

6166. The income of a law corporation attributable to professional services rendered while a shareholder is a disqualified person (as defined in the Professional Corporation Act) shall not in any manner accrue to the benefit of such shareholder or his shares in the law corporation.

6167. A law corporation shall not do or fail to do any act the doing of which or the failure to do which would constitute a cause for discipline of a member of the State Bar, under any statute, rule or regulation now or hereafter in effect. In the conduct of its business, it shall observe and be bound by such statutes, rules and regulations to the same extent as if specifically designated therein as a member of the State Bar.

6168. The State Bar may conduct an investigation of the conduct of the business of a law corporation upon a showing that there is reason to believe that said corporation, or a director, officer, employee, agent or representative of said corporation has violated or is about to violate the provisions of this article or the Professional Corporation Act or of any other pertinent statute, rule or regulation.

Upon such investigation, the Board of Governors, or a committee appointed by it, shall have power to issue subpoenas, administer oaths, examine witnesses and compel the production of records, in the same manner as upon an investigation or formal hearing in a disciplinary matter under the State Bar Act. Such investigation shall be private and confidential, except to the extent that disclosure of facts and information may be required if a cease and desist order is thereafter issued and subsequent proceedings are had. In such investigation, no examination shall be made into privileged and confidential matters of clients as defined in Section 1881 of the Code of Civil Procedure, without the consent of or waiver by the client; and earnings of said corporation and those employed by or connected with it shall not be inquired into, except to the limited extent directly necessary for investigation of a violation or threatened violation.

6169. When there is reason to believe that a law corporation has violated or is about to violate any of the provisions of this article or the Professional Corporation Act or of any other pertinent statute, rule or regulation, the State Bar may issue a notice directing the corporation to show cause why it should not be ordered to cease and desist from specified acts or conduct or its certificate of registration should not be suspended or revoked. A copy of the notice shall be served upon the corporation in the manner provided for service of summons upon a California corporation.

A hearing upon the notice to show cause shall be held before a standing or special committee appointed by the Board of Governors. Upon the hearing the State Bar and the corporation shall be entitled to the issue of subpoenas, to be represented by counsel, to present evidence and example and cross-examine witnesses.

The hearing committee shall make findings in writing and shall either recommend that the proceeding be dismissed or that a cease and desist order issue or that the certificate of registration of the corporation be suspended or revoked. Such determination may be reviewed by the Board of Governors upon written petition for review, filed with the State Bar by the corporation or the State Bar within twenty days after service of said findings and recommendation. Upon review, the Board may take additional evidence, may adopt new or amended findings and make such order as may be just, as to said notice to show cause.

6170. Any action of the State Bar or the Board of Governors or a committee of the State Bar provided for in this article may be reviewed by the Supreme Court by petition for review pursuant to rules prescribed by the Supreme Court; provided, no action of the State Bar, unless by the Board of Governors, and no action of such committee shall be so reviewable unless within twenty days after written notice of such action, the law corporation shall have filed with the State Bar a written petition to the Board of Governors to review such action and such petition shall have been heard and determined or denied or shall not have been acted upon within thirty days by the Board of Governors.

6171. With the approval of the Supreme Court, the State Bar may formulate and enforce rules and regulations to carry out the purposes and objectives of this article, including rules and regulations requiring (a) that the articles of incorporation or bylaws of a law corporation shall include a provision whereby the capital stock of such corporation owned by a disqualified person (as defined in the Professional Corporation Act) or a deceased person shall be sold to the corporation or to the remaining shareholders of such corporation within such time as such rules and regulations may provide, and (b) that a law corporation as a condition of obtaining a certificate pursuant to the Professional Corporation Act and this article shall provide adequate security by insurance or otherwise for claims against it by its clients arising out of the rendering of professional services.

6172. Nothing in this article shall be construed as affecting or impairing the disciplinary powers and authority of the Supreme Court or of the State Bar in respect of conduct of members of the State Bar nor modifying the statutes and rules governing such conduct, except as expressly provided in this article and except that members of the State Bar may properly render legal services as officers or employees of a law corporation and may participate as shareholders, officers and directors thereof, under the terms and conditions provided by this article and the Professional Corporation Act."

Prior to taking such corrective action, the State Forester shall serve a written notice upon the timber operator and the timber owner by certified or registered mail to the last address of record of each. If the timber owner is unknown, then service of such notice may be made upon such owner by posting a copy of said notice upon the property where said violations exist. Said notice shall include a statement of the corrective action to be taken, a date not less than 30 days from the date of service or posting of said notice by which such corrective action is to be taken, and a statement that if such corrective action is not taken on or before the date specified the State Forester may take such corrective action and charge the timber operator or the timber owner for the costs thereof pursuant to this section. Said notice shall also include a statement that if the timber operator or timber owner disagrees for any reason with the proposed corrective action or with the charging of said owner or operator with the costs thereof, he may within 10 days from the service or posting of said notice request of the State Forester a public hearing before the State Board of Forestry.

If said corrective action is not taken by the timber operator or the timber owner on or before the date specified in the notice, then the State Forester may take or contract for the taking of such corrective action and recover the expenses thereof as provided below; provided, however, that if a request is made for a public hearing within 10 days from the service or posting of said notice or if the service of said notice is made upon the timber owner by posting a copy thereof on the property, the State Forester shall not take any corrective action without further order by the board. Where the timber owner or the timber operator makes such request for public hearing, then the board after at least 15 days written notice shall hold a public hearing to hear the objections of said owner or operator or both to the proposed action.

The expenses incurred by the State Forester in taking any corrective action pursuant to this section shall constitute a debt of the timber owner and the timber operator and if not paid by the timber operator within 10 days after written demand therefor may be recovered by the State Forester in a civil action against the timber owner or the timber operator or against both jointly. No action shall lie to recover expenses of correcting any violation occurring more than three years prior to commencement of such corrective action and no action to recover such expenses shall be commenced later than two years following the incurring of such expenses.

By Senator McAteer:

Senate Resolution No. 179

Relative to the Fireman's Fund 100th Anniversary

WHEREAS, The Fireman's Fund Insurance Company, one of the leaders in the American insurance industry, has now begun its second century as an unincorporated insurance firm; and

WHEREAS, The Fireman's Fund Insurance Company started business in three small rooms in San Francisco on May 6, 1863, and began its distinguished career by the issuance of a policy insuring a thousand five-gallon kegs of Boston Syrup for a premium of 12 dollars; and

WHEREAS, From this small beginning the company has developed a distinguished record, and has expanded throughout the country, becoming one of the leading underwriters of property and casualty insurance in the nation and one of the top ranking ocean marine underwriters; and

WHEREAS, The company has survived many great disasters, including the great Chicago fire of 1871 which gave rise to claims of more than one half million dollars against the company, the Boston fire of 1872, the Virginia City fire of 1875, and the San Francisco fire and earthquake of 1906 which destroyed the company's home office and gave rise to claims of 11 million dollars against the company; and

WHEREAS, Despite these catastrophes the company paid off all claims against it and was an important factor in the rebuilding of these cities and in the development and progress of the State of California; and

WHEREAS, This great California company is now preeminent in the field of inland marine and ocean marine insurance, ranks third among the nation's fire insurance underwriters and second in the fidelity and surety classification; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of the Senate salute the Fireman's Fund Insurance Company for its distinguished record, and its significant part in the growth of the insurance industry in this State, and its important role in the economy of the State and nation; and be it further

THE CALIFORNIA STATE COLLEGES
INGLEWOOD, May 10, 1963

The Honorable Glenn M. Anderson
President of the Senate
and Members of the Senate
The Honorable Jesse M. Unruh
Speaker of the Assembly
and Members of the Assembly

From: DON M. MUCHMORE, Vice Chancellor

The attached report, entitled *Faculty Salary Crisis in the California State Colleges*, was prepared by the Chancellor's office in order to provide you with a summary of significant data in support of the request for salary increase funds for the academic personnel of the California State Colleges.

I respectfully invite your attention to the data contained in *Chart I* of said report, which indicates why the Trustees of the California State Colleges have expressed concern with the growing disparity between faculty salaries in the highly competitive academic employment market.

While you are reviewing the attached report, I sincerely hope you will keep in mind that the shortage of college teachers is one of the most critical shortages facing California today; and the California State Colleges, because of their rapid student enrollment growth, must have a recruitment climate which will not only compare favorably with other colleges and universities, as well as other levels of government and industry, but will also take into account the fact that the California State Colleges must recruit a minimum of 8,500 faculty members within the next 10 years.

I believe that you will recognize the difficult and pressing problems faced by the California State Colleges in attracting and maintaining outstanding faculty members in a period of very stiff competition and such rapid growth. Unless these problems are met, the contributions by public higher education to the economic and cultural development of California may be seriously threatened.

The Master Plan for Higher Education strongly recommends that every effort be made to ensure that the institutions of higher education in California maintain or improve their position in relation to the intense competition for the highest quality of faculty members. Unfortunately, *the California State Colleges are falling behind in the face of this competition*. Therefore, we hope that you will give this very important salary increase request your most serious consideration.

24394. (a) In any county which is not, in whole or in part, included within the boundaries of an air pollution control district created by special law to include the area of two or more counties, the board of supervisors may determine, in the manner provided in this section, that the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, are unnecessary for the accomplishment of the purposes of this chapter and that [these sections] *such provisions* shall not be operative within that county.

The board of supervisors may hold a hearing to determine the existence and extent of motor vehicle created air pollution in the county. In determining the existence and extent of air pollution, the air quality standards established by the State Department of Public Health shall be used. The board of supervisors may, at the completion of the public hearing, and on the basis of its finding as to air quality in the county, determine and adopt a resolution declaring that the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, are unnecessary for the preservation of air quality and that [these sections] *such provisions* shall not be operative within the county. A copy of each such resolution shall be filed with the Motor Vehicle Pollution Control Board and the Department of Motor Vehicles.

(b) In each county which is included within the boundaries of an air pollution control district created by special law to include the area of two or more counties the governing body of the district may, by following the procedures set forth in subdivision (a) of this section, on a districtwide basis, (rather than the board of supervisors of each county included within the district) determine that the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, shall not be operative within the district.

(c) Where only a portion of a county is located within an air pollution control district of the class described in subdivision (b) of this section, the board of supervisors of that county may, by following the procedures set forth in subdivision (a) of this section determine that the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, shall not be operative within that portion of the county not included in the air pollution control district.

(d) Thereafter the board of supervisors, or governing body, of each such county (or portion thereof) or district in which the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, are not operative, shall hold such a public hearing at least every two years and may adopt a resolution declaring that the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, are necessary for the preservation of air quality and that those sections shall be operative within the county (or portion thereof) or district, respectively. Thereupon the provisions of Sections 24391, 24392 and 24393, *and Section 4001 of the Vehicle Code, insofar as the provisions of that section are applicable to used motor vehicles*, shall be operative in the county (or portion thereof) or district. A copy of each such resolution shall be filed with the Motor Vehicle Pollution Control Board and the Department of Motor Vehicles."

Relating to the death of Philip B. Lynch

WHEREAS, The late Solano County Superior Judge Philip B. Lynch served his community both as magistrate and District Attorney for over 30 years; and

WHEREAS, During that period of service to his native county and to his native city of Vallejo, Judge Lynch won the admiration and understanding of the citizens of the community because of his exercise of "fair play"; and

By Senator O'Sullivan:

Senate Resolution No. 112

Relative to Red Bluff Diversion Dam boat bypass

WHEREAS, The United States Department of the Army permit to the Bureau of Reclamation authorizing the construction of the Red Bluff Diversion Dam contains a proviso that "If at any time in the future the interests of navigation shall require it, such alteration in the structure, or construction of bridge facilities, as may be ordered by the Secretary of the Army in the interest of navigation, shall be promptly executed by the permittee at its expense, so as to provide adequate means for navigation to pass the damsite"; and

WHEREAS, The recent report of the Bureau of Reclamation entitled "Passage of Small Boats, Red Bluff Diversion Dam, Sacramento Canals Unit, Central Valley Project," contains a study of three alternative plans, two incorporating methods to lift or carry boats over or around the dam at the damsite, and Plan C including a four-mile channel through Paynes Creek Slough to transfer the boats from below the dam to the river above the dam; and

WHEREAS, Plan C would give boaters on the river much better utilization of the river and avoid the hindrance and delay caused by a lift or ramp which would be manually operated; and

WHEREAS, Plan C would provide an excellent means of preserving the existing salmon and steelhead fishery which otherwise would be endangered by the dam even with a fish ladder, since many of such fish will not use a fish ladder, but under Plan C, since the fish could use a natural waterway, these fish would be allowed free migration; and

WHEREAS, The initial cost of Plan C would be higher than the cost of Plans A or B; but in the long run Plan C, which does not require daily maintenance or supervision as to Plans A or B, would cost no more, and in fact may even be less expensive than the other plans; and

WHEREAS, The local interests are heartily in support of Plan C for this project; now, therefore, be it

Resolved by the Senate of the State of California, That the Division of Small Craft Harbors is requested to study how the State could take such action as may be necessary to participate in the financing of Plan C for the passage of small boats at the Red Bluff Diversion Dam; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Chief of the Division of Small Craft Harbors.

The school attendance of such students shall be credited to the county school service fund of the county superintendent of schools providing the education for the students; and State School Fund apportionments on account of such attendance shall be made to the fund in the amount, per unit of average daily attendance, equal to the foundation program computed per unit of average daily attendance for the high school district in which the technical, agricultural, and natural resource conservation school is situated.

6741. A student shall be deemed to be a resident of the high school district in which he lived at the time of his admission to the program and the excess cost for a school year of educating such student shall be paid by the high school district of which he is a resident to the county superintendent who is providing education for the students. The excess cost shall be determined by dividing the total current expense of education as defined in Section 17503 and also excluding expense of boarding and lodging during such school year by the total number of units of average daily attendance in such school or classes during such school year, less state and federal apportionments on account of such average daily attendance.

Average daily attendance of students shall be computed, for purposes of this article, by dividing the number of days such student attended the schools or classes by the number of days that the schools or classes were taught, except that with respect to a student attending such schools or classes for more than 175 days in a school year, the average daily attendance shall be computed by using the divisor of 175.

For purposes of computing average daily attendance 180 minutes of class attendance shall be deemed to constitute a school day, and no more than 15 hours of class time per week shall be considered.

Not later than July 15th of each year, the superintendent of schools of the county providing education for students shall forward his claim for the excess expense reimbursement to the high school district of residence of each student during the preceding school year, and the governing board of such high school district shall upon receipt thereof pay such claims.

The governing board of the high school district to which the claim is presented may include in its budget the amount necessary to pay the claim, and, if the amount is included in the budget, the board of supervisors shall levy a school district tax to raise any amount in excess of the per pupil current expense of education, as defined in Section 17503 and calculated as provided in this section, for the student's high school district of residence for the year for which the claim is submitted. The school district tax shall be in addition to any other school district tax authorized by law to be levied."

By Senators Miller, Arnold, Backstrand, Begovich, Cameron, Christensen, Collier, Dolwig, Donnelly, Geddes, Gibson, Holmdahl, McAteer, McCarthy, O'Sullivan, Petersen, Rees, Regan, Sedgwick, Short, Stiern, Symons, Teale, and Williams:

Senate Resolution No. 84

Relative to the proposed issuance and sale of revenue bonds pursuant to the Central Valley Project Act to finance the construction of Oroville Dam

WHEREAS, At the general election held on November 8, 1960, the people of California approved the Burns-Porter Act (Chapter 8 (commencing with Section 12930), Part 6, Division 6, Water Code). In so doing, they authorized the issuance and sale of $1,750,000,000 of general obligation bonds "to provide funds to assist in the construction of a State Water Resources Development System for the State of California." Under Section 12931 of the Water Code, said system includes "the State Water Facilities . . . and such additional facilities as may now or hereafter be authorized by the Legislature as a part of (1) the Central Valley Project . . ."; and

WHEREAS, Any facility now or hereafter authorized as a part of the Central Valley Project would therefore be a part of the State Water Resources Development System and subject to the provisions of the Burns-Porter Act; and

WHEREAS, The multipurpose dam and reservoir on the Feather River in the vicinity of Oroville, Butte County, is specifically designated as one of the "State Water Facilities" by Section 12934 of the Burns-Porter Act. It is also authorized as a part of the Feather River and Sacramento-San Joaquin Delta Diversion Projects unit of the Central Valley Project by Section 11260 of the Water Code; and

WHEREAS, The Department of Water Resources now proposes to issue revenue bonds in the amount of $325,000,000, pursuant to the Central Valley Project Act to finance the construction of the Oroville Dam, which revenue bonds will be payable from, and constitute a first lien on, the revenues derived from the sale of electric power generated at the Oroville Dam; and

WHEREAS, Under the provisions of the Burns-Porter Act, "all revenues derived from the sale, delivery or use of water or *power*, and all other income or revenues, derived by the State, from the *State Water Resources Development System*" can be used only for:

"1. The payment of the reasonable costs of the annual maintenance and operation of the State Water Resources Development System and the replacement of any parts thereof.

"2. *The annual payment of the principal of and interest on the bonds issued pursuant to this chapter.*

"3. Transfer to the California Water Fund as reimbursement for funds utilized from said fund for construction of the State Water Resources Development System.

"4. Any surplus revenues in each year not required for the purpose specified in the foregoing subparagraphs (1), (2) and (3) of this subdivision (b) of Section 12937 and not required to be transferred to the General Fund pursuant to subparagraph (a) of this Section 12937 shall, during the time any of the

bonds authorized herein are outstanding, be deposited in a special account in the California Water Resources Development Bond Fund and are hereby appropriated for use and shall be available for expenditure by the department for acquisition and construction of the State Water Resources Development System as described in Section 12931 hereof." (Sec. 12937(b), Wat. C.; emphasis added);

and

WHEREAS, It is thus evident that the Oroville Dam, whether constructed as a State Water Facility or as a unit of the Central Valley Project, is a part of the State Water Resources Development System, all revenues from which are irrevocably dedicated to expenditure in strict accordance with the provisions of the Burns-Porter Act; and

WHEREAS, As the Attorney General has stated (see 36 Ops. Cal. Atty. Gen. 163) "If the portion of § 12937(b) quoted above were applied literally, no facilities not fully financed by the Burns-Porter Act could be funded by debt financing except in subordination to the bonds issued under the Act"; and

WHEREAS, This admission by the Attorney General of the plain, ordinarily accepted meaning of the language submitted to the voters is further supported by the Analysis of the measure by the Legislative Counsel, printed in the ballot pamphlet at the time the Burns-Porter Act was submitted to the people for their approval, the pertinent portion of which reads as follows:

"This bond act would pledge the full faith and credit of the State for the payment of the bonds and would appropriate from the General Fund the sum necessary to pay the principal and interest on the bonds. Annual transfers of project revenues to the General Fund would be made to meet bond service payments. If project revenues in any year were insufficient to meet such payment, an amount of money equal to the deficiency would be transferred to the General Fund from project revenues as soon as it became available, with simple interest thereon at the same rate as borne by the bonds.";

and

WHEREAS, That the voters understood this language to mean what the Attorney General concedes is its literal meaning is also apparent from the fact that the argument in favor of the measure, submitted to the voters in the ballot pamphlet, specifically declared as follows:

". . . no new taxes are involved; the bonds are repaid from project revenues, through the sale of water and power. In other words, *it will pay for itself.* . . . The bonds will finance completion of all facilities needed, as described in the Act . . ."; and

WHEREAS, These, the express and unambiguous provisions of the act and the statements made to the people when they voted their approval of the act, not only reflected the intent of the Legislature in submitting the measure, but also constituted the terms of the agreement between the people and their State pursuant to which bonds were to be issued; and

WHEREAS, It is well settled that the voters' approval of a bond issue creates an obligation in the nature of a contract that must be respected, and a material departure from the proposition as voted will not be upheld (see *Golden Gate Bridge etc. Dist.* v. *Felt*, 214 Cal. 308, 339; *Skinner* v. *City of Santa Rosa*, 107 Cal. 464, 465; *Perry* v. *City of Los Angeles*, 187 Cal. 753; *O'Farrell* v. *County of Sonoma*, 189 Cal. 343, 348); and

WHEREAS, If the Burns-Porter Act were to be construed as permitting the use of revenues from any of the facilities of the State Water Resources Development System to repay revenue bonds issued and sold pursuant to the Central Valley Project Act, the terms of the agreement under which the people have extended their approval for the issuance of general obligation bonds will be rendered meaningless: the revenues they are entitled to look to for repayment of those bonds could be diverted to other uses at the will of the Department of Water Resources; and, with the authority to issue unlimited amounts of revenue bonds pursuant to the Central Valley Project Act, the Department could issue revenue bonds not only in the proposed amount of $325,000,000, but for any greater amounts, so as to even further destroy the financial stability imposed by the Burns-Porter Act with respect to the bonds issued thereunder; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate of the State of California hereby declares that it is not now, and was not at the time of the proposal and adoption of the Burns-Porter Act, the intent of the Legislature or of the people of the State of California that the Department of Water Resources should be authorized to issue revenue bonds pursuant to the Central Valley Project Act to finance the construction of the Oroville Dam and to pledge the revenues derived

from the sale of electric power generated at said dam for the payment of such revenue bonds; and be it further

Resolved, That the Department of Water Resources is hereby directed to refrain from issuing and selling any revenue bonds pursuant to the Central Valley Project Act for the purpose of financing the Oroville Dam; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Director of the Department of Water Resources and to each member of the California Water Commission.

Resolution read and adopted on motion of Senator Miller.

SECOND READING OF BILLS (OUT OF ORDER)

"(f) The Yuba River Development will be financed primarily by the above-mentioned bonds payable from revenues received from the sale of electric power. The

However, since this federal flood control monetary contribution will not, under the federal law, be paid in advance, but will be paid as reimbursement for certain construction expenditures from time to time during the period of construction of the project, and since the Yuba County Water Agency will be unable to market satisfactorily the revenue bonds without the amount of the federal flood control monetary contribution on hand, it is necessary for the district to obtain an authorization and a commitment for a loan as provided in this act. It is estimated that the total amount which might be required from the State pursuant to a loan in the unlikely event that the federal government does not make the above-mentioned flood control monetary contribution in timely fashion, or in the full amount authorized, will not exceed ten million dollars ($10,000,000), and will not be required for expenditure until the 1966-67 and 1967-68 fiscal years."

Money authorized to be loaned under such contract shall be available for advance to the agency, if needed, at the time upon which the agency shall deliver its first series of revenue bonds, in such amounts as may be then required, together with the proceeds of said bonds, to assure payment of project costs; provided, that in no event shall said loan be made to the agency until the agency has entered into a contract with the United States. Nothing herein contained shall prevent further advances within the limit of the maximum herein authorized, if required to meet additional project costs. Such advances shall be made in accordance with terms and conditions specified in the contract authorizing the loan.

The Department of Water Resources shall require the payment of interest on each advance made to the agency at a rate equal to the net interest cost to the State on the last sale of general obligation bonds of the State that occurred prior to the time the advance was made; provided, that when the applicable net interest cost to the State is in a multiple of one-quarter of 1 percent, the interest rate on the loan shall be at the multiple of one-quarter of 1 percent next above the applicable net interest cost."

Bill read second time.

Motion to Amend

Senator Cobey moved the adoption of the following amendments:

Amendment No. 1

On page 1 of the printed bill, as amended in Senate April 30, 1963, strike out line 5, and insert

"Article 7.5. Equalization Pools

4300. It is recognized by the Legislature that serious inequities in usage of production of fluid milk and cream for class 1 purposes exists throughout California and that it is necessary in order to effectuate the purposes of this chapter that the director be authorized to formulate and establish equalization pooling plans and base quota provisions for producers of fluid milk and cream for class 1 usage in the several marketing areas in the State.

4300.1. The director is authorized in accordance with the procedures provided to:

(a) Designate the State as an equalization pool area, or he may designate several equalization pool areas covering all marketing areas in the State if he finds several pool areas necessary to accomplish the purposes of this chapter.

(b) Hold one or more public hearings in each designated pool area for the purpose of formulating an equalization pool plan or plans to accomplish the purposes of this chapter and to consider the modification of pool areas.

(c) Develop a proposed pooling plan for each designated pool area based on testimony and evidence adduced at the hearing or hearings. Such proposed pooling plans may be interrelated regional pools or a statewide pool, and such plans may provide for handler pools in combination with regional or statewide pool.

(d) Public hearings for the purpose of formulating equalization pool plan or plans shall be held by the director within ninety (90) days of the effective date of this article.

(e) Submit the pooling plan to producers to determine whether producers assent in writing to the proposed pooling plan.

4300.2. The director shall give notice of the public hearing for each pool area to each producer, including members of cooperative marketing associations, who ship any fluid milk to a distributor's plant located in the pool area and to each distributor who receives fluid milk from producers at such plant in the pool area. The procedures for the giving of notice and the conducting of public hearings shall be the same as provided in Article 5 (commencing with Section 4270) of this chapter for public hearings on stabilization and marketing plans.

4300.3. The pooling plan developed after the public hearing shall make provision for the following:

(a) Provision designating or prescribing methods to achieve equity of class 1 usage to all producers supplying fluid milk to distributors in a pool area unless such production is exempted by provisions in this chapter. The methods shall include payment procedures to accomplish the payment of historical class 1 usage payments based on the usage of the year preceding the first year of operation of the pooling plan to all producers, and to allocate class 1 payment in excess of the historical class 1 usage on a weighted scale to producers with the lowest percentage of class 1 usage until equal percentage of class 1 usage is achieved by all producers within their assigned bases.

(b) The establishment of a base quota for each producer based on production during any historical base period in the year of 1962 and the total of the assigned bases for the individual members of co-operative associations shall be assigned to the association. The assigned base of the co-operative association shall be allocated to its members in accordance with the bylaws of the association.

(c) Procedure for the establishment of a base quota for producers who commenced market milk production subsequent to the historical base period.

(d) The contract relationship between producer and distributor as a requirement for participation in the equalization pool. The membership agreement between an individual member of a nonprofit co-operative association and the association meets this requirement.

(e) The establishment of a formula for movement toward an equal class 1 usage relationship recognizing historical class 1 usage as provided in Section 4300.3, paragraph A. Such equalization formula shall not result in reduction of historical class 1

usage of any producer, provided however, that such producer may be required to attain within a prescribed period of time a prescribed relationship between his class 1 usage and his total production. This prescribed relationship between class 1 usage and total production requirements shall give recognition to the supply standards in Section 4281 of Chapter 17.

(f) The formula shall not result in any reduction of the historical base class 1 usage of any producer except during any period for which total class 1 usage is less than for the historical base period.

(g) Provision for the requirements and conditions under which a producer contract may be transferred.

(h) Provision for the requirements and conditions under which a producer base quota may be transferred.

(i) Designation of producer, producer-distributors and distributors who shall be subject to the provisions of such plans.

(j) Pooling plans shall not restrict free movement of qualified milk. Provisions of such plans shall not result in unequal raw product between distributors in a marketing area.

4300.4. The pooling plan or plans developed after the public hearing or hearings shall make provision for the following:

(a) Modification of base quotas in relation to the current and prospective demand for fluid milk.

(b) Provision for interpool relationships to accomplish the purposes of this chapter.

(c) Provisions for price adjustments to stabilization and marketing plans by formula related to supply and other price standards in this chapter.

4300.5. The pooling plan or plans developed in accordance with the standards provided in this article shall be submitted to each producer for his written assent. The procedure to be followed in determining whether producers assent in writing to the proposed plan or plans shall be considered at the public hearing called to formulate the plan. The procedures adopted shall provide an opportunity for every producer directly affected to assent to the plan. The procedures adopted may provide an opportunity for interested persons to assist in carrying out the assent procedures.

4300.6. If the director finds that producers on a statewide basis have assented in writing to the pool plan submitted to them for assent the director shall place the pool plan or plans into effect. The director shall find that producers have assented to the plan if he finds on a statewide basis that (a) not less than 51 percent of the total number of eligible producers in the State shall have voted in the referendum (b) 75 percent or more of the total number of eligible producers who voted in the referendum who produced 51 percent or more of the total amount of fluid milk produced in 1962 in the State by all producers who voted in the referendum approve the plan or 51 percent or more of the total number of eligible producers who voted in the referendum who produced 75 percent or more of the total amount of fluid milk produced in 1962 by all producers who voted in the referendum approve the plan.

If a pool plan is not approved, the director may resubmit the plan, or submit a new plan, at any time after six months from the date the director announces the pool plan was not approved.

4300.7. The pool or pools established shall be administered by the director. Each distributor shall deduct from moneys owed producers and pay to the director to cover the cost of administration of the pool plan.

4300.8. The director shall appoint a review board composed of no less than nine (9) members to advise him in the administration of the pool plan or plans. The board members shall be producers. Each member of the review board shall be paid his necessary travel expenses approved by the director which are incurred in the attendance at board meetings or in conducting the business of the board.

4300.9. Any provision of this article which is in conflict with other provisions of this chapter shall take precedence over such other provisions. Any provision of any pool plan established under the provisions of this article which is in conflict with any provision of any stabilization and marketing plan shall take precedence over such stabilization and marketing plan.

4300.10. Provision for the amendment or termination of a pool plan or plans shall be as provided in Section 4248 of Chapter 17."

Amendment No. 2

On page 1, strike out lines 7 to 28; and strike out all of pages 2 to 6, inclusive.

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Agriculture.

CONSENT CALENDAR OF SENATE BILLS

By Senator Farr:

Senate Resolution No. 90

Relating to an interim study of mechanics' liens

WHEREAS, The Conference of State Bar Delegates appointed a committee to study the California laws dealing with liens of mechanics and materialmen at its 1958 Conference; and

WHEREAS, This study continued during 1959, 1960, 1961 and 1962; and

WHEREAS, A comprehensive report was submitted to the State Bar by the Conference Committee appointed in 1962 which report runs several hundred pages in length and from which it becomes obvious that further study at the State Bar level would accomplish nothing to bring clarity to the now confusing lien laws; and

WHEREAS, It seems apparent that public hearings must be held to resolve differences which now exist between various segments of the building industry, lending institutions and other groups which should be heard before any comprehensive changes are made in the existing law; and

WHEREAS, It would appear that the subject matter of the State Bar committee should be referred to an interim committee of the Legislature for a thorough and comprehensive study of the lien laws; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate Rules Committee is directed to assign to the appropriate interim committee the subject matter of this resolution for study of the problems referred to herein, and that such committee report thereon to the Senate by not later than the 30th calendar day of the 1965 Regular Session, including in the report its recommendation for appropriate legislation.

By Senator Miller:

Senate Resolution No. 186

Relative to investigating the practices, procedures and acts of the Public Utilities Commission in Orange County

WHEREAS, The Senate Special Committee on Governmental Administration in 1957 and 1958 conducted an investigation of the practices, procedures and acts of the Public Utilities Commission in the field of utilities providing public water service, with particular reference to the certification by the Public Utilities Commission of some 16,000 acres of land in Orange County to the Southern California Water Company as its exclusive area of service; and

WHEREAS, In the course of said investigation, the Senate Special Committee on Governmental Administration conducted hearings and received evidence as to the practices, procedures and acts of the Public Utilities Commission in this field; and

WHEREAS, As a result of the evidence received by the Senate Special Committee on Governmental Administration, the committee in 1959 submitted its report of its findings, conclusions and recommendations published in Appendix 1 of the state Senate Journal for 1959; and

WHEREAS, Said committee recommended revisions in the practices and procedures of the Public Utilities Commission to improve the administration of the law relating to public utilities by the Public Utilities Commission in the interest of the people of the State of California; and

WHEREAS, Said committee further recommended that additional investigation and study be made upon this subject, but no further investigation and study of such matters have since been made; and

WHEREAS, Representatives of the City of Anaheim, City of Garden Grove, City of Westminster, Board of Supervisors of Orange County, and the Orange County Water District, have reported that the Public Utilities Commission has recently taken certain action and is threatening to take further action with reference to the transfer by a water utility company serving customers in Orange County of certain of its service areas to certain public agencies, and that such action of the Public Utilities Commission is contrary to the interests of the water users in Orange County and are in excess of the proper authority of the Public Utilities Commission and constitute an abuse of the legal discretion vested in said commission; now, therefore, be it

Resolved by the Senate of the State of California, That the subject of the further investigation of practices, procedures and acts of the Public Utilities Commission and its rules, regulations and orders in the regulation of public utility companies serving water to people of the State of California, with particular reference to the acts and orders of the commission insofar as it relates to the transfer of certain properties and water user services in Orange County to public agencies interested in acquisition of said properties and water user services, is assigned to the Committee on Rules for reassignment to an appropriate interim committee for investigation and study; and be it further

Resolved, That said committee is requested to study all matters relating to the question of whether the Public Utilities Commission by its present practices and procedures, and present rules, regulations and acts is in fact serving the interests of the people of the State of California, and in particular is protecting the water users of the County of Orange of the State of California; and be it further

Resolved, That the committee to which the subject matter of this resolution is assigned shall report its findings to the Legislature not later than the fifth calendar day of the 1965 Regular Session.

Resolution read, and referred to Committee on Rules.

Senate Resolution No. 188

Relative to the State Board of Dry Cleaners

WHEREAS, Senate Bill No. 957 of the 1963 Regular Session proposed to exempt self-service type dry cleaning establishments from the coverage of the statutory provisions administered and enforced by the State Board of Dry Cleaners; and

WHEREAS, The bill was referred to the Committee on Rules for assignment to an appropriate interim committee for study; and

WHEREAS, There is a substantial question as to whether the presence of a registered operator is necessary at all times while a self-service type dry cleaning establishment is in operation; and

WHEREAS, Pending the determination of the interim committee, it is the opinion of the members of this Senate that self-service type dry cleaning establishments should be allowed to operate without an operator who has a valid registration certificate issued by the State Board of Dry Cleaners being present; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of this Senate urge the State Board of Dry Cleaners not to require self-service type dry cleaning establishments to have certified operators present during the hours the establishment is open pending the outcome of the interim study of Senate Bill No. 957; and be it further

(a) In each fiscal year the City of Long Beach shall prepare a budget specifying in detail the needs of the city for that particular fiscal year in order to carry out the trust purposes.

(b) After the preparation of the budget, such budget shall be submitted to the State Lands Commission for review. The City of Long Beach shall make available to the commission all data supporting the requests for expenditures by the city and all financial and operating records relevant to trust lands expenditures.

(c) After the review of the budget, the State Lands Commission shall recommend to the Governor for inclusion in the Budget Bill for each fiscal year those amounts required to accomplish objectives which the commission determines are within the legitimate purposes of the trust and which constitute statewide interest. In making its recommendations the State Lands Commission shall give primary consideration to subsidence expenditures.

(d) The Legislature shall review and act upon the items included in the Budget Bill pursuant to this act.

SEC. 3. Notwithstanding any provision contained in Chapter 29, Statutes of 1956, Extraordinary Session, after the effective date of this act, all contracts, royalty arrangements, or other agreements relating to the drilling for, developing, extracting, processing, taking or removing, or disposition of oil, gas, or other hydrocarbons

derived from the Long Beach tide and submerged lands shall be executed by the State acting by and through its State Lands Commission. All moneys received by the State under such contracts, royalty arrangements, or other agreements shall be deposited in the State Treasury to the credit of the Tideland Revenue Fund.

SEC. 4. The Legislature hereby finds and declares that there is an urgent need for the development of the Long Beach tide and submerged lands for the public trust purposes of commerce, navigation and fisheries for the benefit of all of the people of the State, instead of for purely local interests. The Legislature also finds and declares that the subsidence problem on the Long Beach tidelands requires serious legislative consideration. As no specific definition of legislative trust expenditures is available, and a substantial increase in oil revenues from the Long Beach tide and submerged lands is anticipated, the Legislature further finds and declares that the review method contained in this act for the expenditure of tideland oil revenue will most adequately serve both the State and the City of Long Beach.

SEC. 5. Section 12912 of the Water Code is amended to read:

12912. There shall be deposited in the California Water Fund:

(a) All resources of the Investment Fund.

(b) All receipts and revenues of any type and nature derived from any project constructed, operated, or maintained in whole or in part from the fund, except such receipts and revenues which are necessary to pay the costs of operation, maintenance, replacement, and debt service in connection with the project, and all receipts and revenues of any type or nature derived by the State from joint-use projects between the State and the federal government, except such receipts and revenues which are necessary to pay the costs of operation, maintenance, replacement and debt service, in connection with any such project.

(c) Such moneys in other funds which the Legislature may hereafter direct the Controller to transfer to the fund, and any money required to be deposited in the California Water Fund pursuant to the provisions of subdivision (b) of Section 6816 of the Public Resources Code.

[(d) All revenues received by the State pursuant to the provisions of Chapter 29, Statutes of 1956, First Extraordinary Session.]

[(e)] *(d)* All money from any state bond issue authorized and sold for the purposes of this chapter.

[(f)] *(e)* All other funds made available solely for the purposes of this chapter by gift or any other means.

"SEC. 36.1. Section 425 of said code is amended to read:

425. Unless otherwise stated, the provisions of this chapter shall apply to any public assistance program established by this code for which federal funds are received by this State, and shall also apply to the aid to the potentially self supporting blind program established under Chapter 3 (commencing with Section 3400) of Part 1 of Division 5 of this code. The terms "applicant" and "recipient", as used in this chapter, refer to any person applying for or receiving aid under any such public assistance program.

[Sections 433 through 437 do not apply to medical assistance for the aged as provided for in Chapter 1 (commencing with Section 4700) of Part 4 of Division 5 of this code.]

SEC. 36.2. Section 433 of said code is repealed.

[433. During such time as grants-in-aid are provided or made available by the United States government for public assistance in this State, the State Treasurer shall pay to each county from the sums so granted (1) an amount which shall be used exclusively as public assistance equal to the full amount of any sums received from the United States government as public assistance in respect to recipients within the provisions of this chapter maintained or supported by the county; and (2) an additional amount equal to such county's proportionate share of any amount so granted or made available to this State by the United States government for the costs of administering such aid, which additional amount shall be used exclusively for paying such administration costs. The State Department of Social Welfare shall determine the portion of the amount so granted or made available for administration costs to be paid to the counties, which portion for each county shall bear the same proportion to the total amount made available to this State for such administrative costs that the administrative costs of that county bear to the total administrative costs of all counties and of the State. The State Board of Social Welfare shall adopt rules and regulations which shall be of uniform application for determining the proportionate shares for such quarter to each county under the provisions of Sections 433 and 435.]

SEC. 36.3. Section 434 of said code is repealed.

[434. During such times as grants-in-aid are provided or made available by the United States government for the purpose of defraying any portion of the costs of administration incurred for public assistance, the State Treasurer shall pay to each county an amount equal to such county's proportionate share of the sum so granted for the cost of administration which amount shall be used exclusively for paying such administration costs. The State Department of Social Welfare shall determine the portion of the amount so granted or made available for administration costs to be paid to the counties, which portion shall be determined pursuant to rules and regulations of the State Board of Social Welfare and shall be not less than one-half of the amount so granted or made available. The State Board of Social Welfare shall adopt rules and regulations which shall be of uniform application for determining the proportionate shares of the respective counties of the portion so determined to be paid to such counties.

This section shall become operative and shall supersede Part 2 of Section 433 during such times as grants by the United States government, provided or made available to defray any portion of administration costs incurred for public assistance, are not computed as a proportion of such costs of administration. Whenever this section is in effect, all other sections referring to Section 433 shall also be deemed to refer to Section 434.]

SEC. 36.4. Section 435 of said code is repealed.

[435. From the sums appropriated therefor by the State of California, the State Treasurer shall pay to each county an additional amount, which shall be used exclusively for public assistance, equal to that proportion of the aid grants paid by the county under each public assistance program to which this chapter relates as is specified in the appropriation for that program contained in the law governing the program, after deducting from the sums so expended the amount paid to the county under subdivision (1) of Section 433 of this code.]

SEC. 36.5. Section 436 of said code is repealed.

[436. The method of computing and paying the amounts provided for in Sections 433 and 435 for each quarter shall be as follows:

(a) The State Department of Social Welfare shall, prior to the beginning of each quarter, estimate the amount to be paid for such quarter to each county for public assistance under the provisions of Sections 433 and 435.

(b) The State Department of Social Welfare shall then certify to the State Controller the amounts so estimated by it for each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county under this chapter for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater or less than the amount estimated by the State Department of Social Welfare for such prior quarter.

(c) The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the State Department of Social Welfare, and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified.

Upon the order of the Department of Social Welfare, the amount approved for the quarter may be paid in monthly installments and, if paid in monthly installments all necessary adjustments for the prior quarters shall be made by additions or deductions from the allowance for the first month of each new quarter or in the manner prescribed by the State Department of Social Welfare.]

SEC. 36.6. It is the intention of the Legislature in enacting this act to consolidate the various appropriations made for public assistance, and to provide a uniform cost-sharing basis, without increasing the State's share of the costs of public assistance. It is not the intention of the Legislature to authorize the expenditure of additional state funds over what the State is now required to pay."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Social Welfare.

SEC. 5. Section 6871.3 of said code is amended to read:

6871.3. Whenever it appears to the commission that it is for the best interests of the State to lease lands subject to the provisions of Section *s* 6871.1 *or 6877* of this code for the production of oil or gas therefrom, or whenever a person who possesses the qualifications provided in this chapter makes written request therefor, the commission may, subject to the provisions of Section 6871.4, offer the same for bidding at such times and in such parcels as the commission shall determine to be in the best interests of the State.

SEC. 6. Section 6872 of said code is amended to read:

6872. Tide and submerged lands other than those which may be leased under Section 6871.1 and Section 6872.1, [and beds of navigable rivers and lakes] may be leased by the commission if the commission shall determine (1) that oil or gas deposits are believed to be contained in such lands, (2) that the same are being drained by means of wells upon adjacent lands, and (3) that the leasing of the same for the production of oil and gas will be in the best interests of the State.

SEC. 7. Section 6873 of said code is amended to read:

6873. When leasing tide or submerged lands *or beds of navigable rivers or lakes*, the commission shall prepare a form of lease which shall contain, in addition to other provisions deemed desirable and necessary by the commission, appropriate provisions contained in this chapter and the following:

(a) Each well drilled pursuant to the terms of the lease may be drilled or slant-drilled to and into the subsurface of the tide or submerged lands *or beds of navigable rivers or lakes*, covered by the lease from upland, *riparian* or littoral drill sites owned or controlled by the State or owned by or available, *at any time*, to the lessee, or from drill sites located upon any filled lands heretofore or hereafter filled, whether contiguous or noncontiguous to the *riparian or* littoral lands or uplands, or from any pier heretofore or hereafter constructed owned by or available to the lessee and available for such purpose, or from platforms or other fixed or floating structure in, on or over the tide or submerged lands *or beds of navigable rivers or lakes*, covered by the lease or otherwise available to the lessee.

(b) Pollution and contamination of the ocean, and tidelands, *or navigable rivers or lakes*, and all impairment of and interference with bathing, fishing or navigation in the waters of the ocean or any bay or inlet thereof, *or any navigable river*

or lake, is prohibited, and no oil, tar, residuary product of oil or any refuse of any kind from any well or works shall be permitted to be deposited on or pass into the waters of the ocean or any bay or inlet thereof *or any navigable river or lake*; provided, however, that this subsection (b) shall not be deemed to apply to deposit on or passage into said waters of water not containing any hydrocarbons or vegetable or animal matter.

(c) If the lessee, as disclosed by information submitted with his bid, proposes to drill one or more wells from filled lands, whether contiguous or noncontiguous to the *riparian or* littoral lands or uplands, or from any pier or from platforms or other fixed or floating structures to be constructed for such purpose, and if permission from any federal or state agency is legally required in order to construct any such filled land or structures, the lessee shall be allowed a reasonable time following the execution of the lease [and prior to the commencement of the drilling term thereof] within which to secure the necessary permission from such federal and state agencies as shall be legally required, and, upon the securing of such permission, a further reasonable time, determined with regard to the nature of the filled lands or structure or structures to be constructed, within which to commence operations for the drilling of such well or wells[,]. [and, if necessary,] *T*he drilling term of the lease shall be extended by the commission *by a period equal to such reasonable time to secure such permission, and, if necessary,* to the date to which the time to commence operations for the drilling of such well or wells has been extended.

(d) Any offshore filled lands or structure or structures constructed for the purpose of drilling pursuant to this section shall conform to the rules and regulations of the commission in effect at the time of invitation for bids in pursuance of which the lease is awarded. Drilling, whether from upland, *riparian*, littoral or offshore locations, shall be conducted in conformance with such rules and regulations in effect at the time of invitation for bids in pursuance of which the lease is awarded.

In the case of any existing lease of tide or submerged lands, the commission may, with the consent of the other party thereto, amend the same so as to contain or conform with subdivisions (a), (b), (c) and (d) hereof, or any of them, except that the provisions of said subdivision (d) when incorporated into such a lease by such an amendment shall refer to the rules and regulations in effect at the time such amendment is made rather than to those in effect at the time of invitation for bids in pursuance of which the lease is awarded and said subdivision (a) may not be incorporated into such a lease without also incorporating said subdivision (d) therein.

SEC. 8. Section 6873.1 of said code is amended to read:

6873.1. Filled lands shall include, but not be limited to, tide or submerged lands *or beds of navigable rivers or lakes*, reclaimed artificially through raising such lands above the highest probable elevation of the tides, *or high water line on the river banks or shore*, to form dry land, by placement of a fill or deposit of earth, rock, sand or other solid imperishable material. Such fill may be retained in place or protected by bulkheads, seawalls, revetments or similar enclosures and may be placed at any location approved by the commission under a lease heretofore or hereafter issued pursuant to this article.

SEC. 9. Section 6873.2 of said code is amended to read:

6873.2. Before offering any tide or submerged land area *or beds of navigable rivers or lakes in any area* for an oil and gas lease, the commission shall publish notice thereof, and any affected city or county may, within thirty (30) days after the publication of such notice, request in writing to the commission that a hearing be held with respect thereto. Upon receipt of such request, the commission shall hold such a hearing and give not less than ten (10) days' written notice thereof to the city or county, or both such city and county, making such request, and to the Department of Natural Resources, and shall publish such notice. The commission in its discretion and irrespective of any such requests may hold such hearings as it shall determine. Published notices shall be given in the manner prescribed in section 6814 of this chapter.

In not less than thirty (30) days after such hearing the commission shall determine whether or not to offer the land for lease, as provided under Sections 6871.3, 6872 and 6872.1. In such determination the commission shall consider whether the issuance of a lease as to all or a part of such lands would result in an impairment or interference with the developed *river bank or* shore line recreational or residential areas adjacent to the proposed leased acreage, or whether to offer such land for lease as to all or a part thereof and include in the offer for lease such reasonable rules and regulations which, in the opinion of the commission, are necessary for the exploration, development, and operation of said lease in a manner which will not impair or interfere with said developed *river bank or* shoreline recreational or residential areas; provided, however, that no tide or submerged lands *or beds of navigable rivers or lakes* shall be offered for lease under any conditions, rules, or regulations which will result in a discrimination between bidders as prohibited by Section 6874.

The commission in determining whether the issuance of such lease or leases would result in such impairment or interference with the developed *river bank or* shoreline, recreational or residential areas adjacent to the proposed leased acreage or in determining such rules and regulations as shall be necessary in connection therewith shall at said hearing receive evidence upon and consider whether such proposed lease or leases would

(a) Be detrimental to the health, safety, comfort, convenience, or welfare of persons residing in, owning real property, or working in the neighborhood of such areas;

(b) Interfere with the developed *river bank or* shoreline, residential or recreational areas to an extent that would render such areas unfit for recreational or residential uses or unfit for park purposes;

(c) Destroy, impair, or interfere with the esthetic and scenic value of such recreational, residential or park areas;

(d) Create any fire hazard or hazards, or smoke, smog or dust nuisance, or pollution of waters surrounding or adjoining said areas.

Authority to hold the hearings provided in this section may be delegated by the commission to its officers or employees.

SEC. 10. Section 6874 of said code is amended to read:

6874. Each bid shall be accompanied by information giving a description of the location or locations, structure or structures, from which the bidder proposes to drill. In awarding a lease, the commission shall not discriminate between bidders by prohibiting drilling from upland, [or] littoral *or riparian* drill sites, or drilling from sites upon filled lands, whether contiguous or noncontiguous to the *riparian or* littoral lands or uplands, or upon any pier or platform or other fixed or floating structure in, on or over tide and submerged lands *or beds of navigable rivers or lakes*, with respect to which the State or other owner thereof has consented, *or may thereafter consent*, to such use; provided, however, that in the event state-owned tide or submerged lands *or beds of navigable rivers or lakes* are determined by the commission to contain oil or gas deposits which are being drained by wells owned by others upon adjacent lands, and such state-owned tide and submerged lands *or beds of navigable rivers or lakes* cannot be developed by a particular method of exploration, development or operation without interfering with or impairing developed *river bank or* shore line, recreational or residential areas, then the commission may offer and award an oil and gas lease on such lands with a prohibition against said particular method of exploration, development or operation.

SEC. 11. Section 6875 of said code is amended to read:

6875. If the Legislature has transferred to any city or county the administration of the trust, whether or not limited, under which tide or submerged lands *or beds of navigable rivers and lakes* are held by the State, the commission, pursuant to this chapter, may enter into agreements on behalf of the State to compensate any such city or county for the use of surface drilling and operating sites upon such lands from the royalty or revenue to be derived by the State from oil and gas taken from such lands by lessees of the State.

Any such compensation shall include an amount sufficient reasonably to compensate any such city or county for any damage to or interference with the use or uses to which the surface of such lands are being or may be utilized by or upon behalf of such city or county. The consideration to the State in any such agreement shall include the right to a lessee of the State to carry on all operations on any such tidelands *or beds of navigable rivers and lakes* necessary to accomplish the purposes of this chapter and such terms and conditions as shall be determined by the commission to be in the interests of the State.

The consideration to the State in any such agreement shall also include a compromise, settlement and release of any and all claims and rights which such city or county has or may have against the State arising out of or in connection with the extraction and removal of oil and gas from such lands. All money paid to any city or county under this section shall be used by it solely in furtherance of the trust under which the administration of tide and submerged lands *and beds of navigable rivers and lakes* has been transferred to such city or county and for the purposes expressed in the act so transferring administration of such lands.

SEC. 12. Section 6877 of said code is amended to read:

6877. *All* the beds of navigable rivers and lakes belonging to the State may be leased *pursuant to Section 6871.3 of this code* [by the commission] for the production of oil and gas, subject to the same limitations and conditions [as are] imposed [upon tide and submerged lands] by this article, and in accordance with the provisions of this chapter in so far as not in conflict with this article."

The following resolutions were offered:

By Senator O'Sullivan:

Senate Resolution No. 189

Relative to urging the Federal Power Commission to deny authority for additional pipelines to California

WHEREAS, Three interstate pipeline companies are now delivering large volumes of natural gas to California, and

WHEREAS, A substantial excess capacity now exists in these pipelines through which additional volumes of natural gas can be delivered at favorable prices to California consumers; now, therefore, be it

Resolved by the Senate of the State of California, That the Federal Power Commission and all other appropriate regulatory bodies be urged to deny authority for additional pipelines to California until full utilization of existing pipelines is attained; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the Federal Power Commission and the California Public Utilities Commission.

By Senator O'Sullivan:

Senate Resolution No. 190

Relative to a geologic interim study

WHEREAS, California's population growth is creating sprawling communities which demand new jobs and new industries which at the same time have a restrictive impact upon the economic availability of industrial minerals, which are themselves so necessary to continued urban and industrial growth; and

WHEREAS, The statewide competition for land use is creating problems in meeting the demand for all minerals; and

WHEREAS, There is a growing demand for statewide geologic mapping as well as for geologic knowledge directed to the availability of vital industrial minerals from which to build public works, communities and support industries; and

WHEREAS, Large quantities of raw mineral materials are being shipped into California for industrial use when there may be sources in California for such materials, the development of which within our own State would create new jobs and enlarge the tax base; and

WHEREAS, Greater knowledge is needed concerning the geologic environment and especially the geologic hazards, such as landslides, in and around the large metropolitan centers; and

WHEREAS, There is an increasing need for basic geologic information and geologic mapping by state agencies engaged in public work; and

WHEREAS, There is an obvious need for investigation and applied research in these fields of: competition for land use, geologic environment of metropolitan areas, geologic mapping needs and mineral resources and mineral utilization required for raw materials for new industrial development and for sustaining existing industries in California; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate Fact Finding Committee on Natural Resources is directed to examine into these problem areas and report to the Legislature at its 1965 Regular Session with recommendations as to how to improve and expedite the development of the geologic and mineral knowledge of the State and how to make such knowledge widely and promptly available to help meet the growth demands confronting the State of California.

1026. The director shall maintain a separate account for each employer, and shall credit his account with all the contributions paid on his own behalf. Unemployment compensation benefits paid to an unemployed individual during any benefit year shall be charged [against the account of his employer during his base period,

but if the individual performed services in employment for more than one employer during his base period, unemployment compensation benefits paid to him shall be charged against the respective accounts of such employers in the proportion that the total wages paid to the individual in employment for each employer bears to the total wages paid to the individual in employment for all employers during the base period] *to the account of each base period employer in inverse chronological order of such individual's most recent date of base period employment by each, at the rate of one (1) weekly benefit amount for each week of employment which such individual had with each such employer in his base period. Whenever such individual was employed by two or more employers simultaneously during his base period, and it is not readily ascertainable for which of such employers such individual last worked, the charges for any weekly benefit amounts paid shall be prorated among such several employers in proportion to remuneration which each of them paid such individual during the base period. The maximum amount charged to any base period employer for benefits paid to an unemployed individual during any benefit year shall not exceed the wages paid to such individual during the base period by such employer.*

1275. Unemployment compensation benefit award computations shall be based on wages paid in the base period. ["Base period" means: for benefit years beginning in November, December, or January, the four calendar quarters ended in the next preceding month of June; for benefit years beginning in February, March, or April, the four calendar quarters ended in the next preceding month of September; for benefit years beginning in May, June, or July, the four calendar quarters ended in the next preceding month of December; for benefit years beginning in August, September, or October, the four calendar quarters ended with the next preceding month of March.] *The term "base period" means the period of fifty-two (52) consecutive, calendar weeks immediately preceding the first day of the week in which the individual first files a valid claim for benefits.* Wages used in the determination of benefits payable to an individual during any benefit year shall not be used in determining such individual's benefits in any subsequent benefit year.

SEC. 4. Section 1277 of said code is repealed.

[1277. Wages paid prior to the filing of a valid claim and not used in the computation of the award may be used for the purpose of computing the amount of any other award only if within the 12 month period following the date of the filing of the valid claim the individual was paid sufficient wages to meet the eligibility requirements of Section 1281. This section is not applicable to the computation of an award for disability benefits but the establishment of a valid claim for disability benefits shall not constitute a valid claim for unemployment compensation benefits unless the claimant has sufficient wages to entitle the claimant to an award under this section.]

SEC. 5. Section 1277.5 of said code is repealed.

[1277.5. In determining, under Section 1277, whether wages paid prior to the filing of a valid claim may be used in computing the amount of any other award, twice the amount which an individual was entitled to receive under Part 2 (commencing with Section 2601) of this division or under Division 4 (commencing with Section 3201) of the Labor Code during the 12-month period following the filing of the valid claim, shall be considered as wages paid to the individual during that 12-month period for purposes of meeting the eligibility requirements of Section 1281. The amount so included shall not be considered wages for the purpose of computing the weekly benefit amount of the individual under Section 1280.]

SEC. 6. Section 1280 of said code is amended to read:

1280. An individual's weekly benefit amount is the amount appearing in column B in the following table opposite [that wage bracket in Column A which contains the amount of wages paid to the individual for employment by employers during the quarter of his base period in which his wages were the highest] *the average weekly wage appearing in column A, which is the average weekly wage paid to the individual for employment by employers in the weeks in which he received wages of not less than twenty dollars ($20) for employment by employers during his base period.*

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 336:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 10, 1963

To the Honorable Members of the Assembly and Senate:

Assembly Bill No. 336, "An act to amend Sections 11010, 11018, and 11019 of, to add Sections 11007, 11018.2, 11018.3, 11022, and 11023 to, and to repeal Sections 11000.5 and 11020 of, the Business and Professions Code, relating to subdivided lands."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 28, 1963

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning herewith unsigned, Senate Bill 400, entitled "An act to amend Sections 4181, 4410 and 4415 of the Agricultural Code, relating to marketing of dairy products." I am fully in favor of amendments to Sections 4181 and 4410 as embodied in this bill by providing a range of penalties to be imposed for the violation of the law, instead of the present mandatory penalty of $500. The amendments to these two sections make the administration of the law more flexible and, as a result, more effective.

The amendment to Section 4415 presents, however, a serious problem. It limits the penalty of revocation or suspension of license to cases of second or subsequent violations of Chapter 17 of the Agricultural Code and to the regulations and directives thereunder. The stated purpose of Chapter 17 is to prevent "unfair, unjust, destructive and demoralizing trade practices" in the production, marketing, sales, processing or distribution of fluid milk or fluid cream. Section 4201 of Chapter 17 refers to these practices as a constant menace to the health and welfare of the inhabitants of the State, tending "to undermine sanitary regulations and standards of content and purity however effectually such sanitary regulations may be enforced." What Section 4415 seems to state in light of this declaration of policy is that no matter how "unfair, unjust, destructive or demoralizing" might be the practices engaged in by the offenders, no matter what magnitude of menace they create to the "health and welfare of the inhabitants of the state," the Department of Agriculture may not suspend or revoke the offender's license for the first violation of the law.

This, of course, provides the licensee with an opportunity to engage in all sorts of dubious practices without risking the loss of his license. If one person engages in such practices in reliance on the period of grace, there is nothing to prevent his

competitors from following suit. And if one industry is granted such preferential treatment, there is nothing to prevent other industries, such as real estate licensees, employer groups and unions, liquor licensees and owners of race tracks to ask for similar treatment for their first offenders. While in full agreement with the purposes of the amendments to Section 4181 and 4410, I feel that the effect of the bill as a whole is to ossify the administrative process to make it more rigid rather than more flexible and effective.

This bill, if it were to become law, would, in my opinion, seriously interfere with the proper administration of Chapter 17 of the Agricultural Code. I veto it primarily for that reason. Beyond that I am vetoing it also for the dangerous precedent it might create by intimating to other state-supervised industries that they too may strive for the enactment of similar legislation, giving a similar period of grace to their first offenders, no matter how flagrant the violation or how intentional the offense.

Accordingly, I am returning the bill to you without my signature, in the hope that amendments to Sections 4181 and 4410 might yet be incorporated into another bill and enacted in the course of this session.

Respectfully,

EDMUND G. BROWN, Governor

Senate Bill No. 400 ordered placed on the Unfinished Business File.

imposed on such a class of water-producing facilities are to be imposed by a method not requiring the board to have the knowledge it would receive from such semiannual statements.

In the event that the board determines, pursuant to Section 10, not to require the registration of a particular class of water-producing facilities or not to require the submission of semiannual statements by the operators of a particular class of water producing facilities and the charges or assessments on such facilities are otherwise established such charges and assessments shall be paid at the time and in the manner set forth in appropriate rules and regulations adopted by the board."

Notice of such a public hearing shall be published pursuant to Section 6061 of the Government Code at least 10 days prior to the date of such a hearing and the notice shall contain a brief description of any rules and regulations to be considered at the hearing.

SEC. 22. There shall be within the district a board of review. The board of review shall consist of three members to be appointed, except as otherwise provided in this act, as follows: one by the City Council of the City of Stockton, one by the Board of Supervisors of the County of San Joaquin, and one by the board of directors of the district. Each of the members of the board of review shall have such experience or training so as to qualify them to deal with the matters which it is reasonably anticipated will come before the board of review. The members of the board of review shall each serve at the pleasure of the governing board making the respective appointment. If either the city council or the board of supervisors fails to appoint its respective member of the board of review, or to fill a vacancy with respect to its member, within 30 days after being requested in writing by the board of directors to do so then the board of directors shall fill such a vacancy and a person so appointed shall serve until such time as the city council or the board of supervisors respectively makes the necessary appointment but any person so appointed by the board of directors, because of the failure of the city council or the board of supervisors to act, shall continue to serve until any matters pending before the board and in which he has participated have been finally acted upon by the board as to such matters.

The board of review shall meet from time to time as is necessary to review the actions of the board of directors pursuant to this section. The board of directors shall provide for the actual and necessary expenses of the board of review and shall in addition thereto pay to each member of the board of review twenty five dollars ($25) per meeting actually attended. The board of directors shall establish appropriate rules of procedure for the conduct of the business of the board of review. Two members of the board of review shall constitute a quorum for all purposes. All meetings of the board of review shall be open to the public and at any meeting of the board of review the board of directors, or members thereof, may be present or may be represented by counsel or other personnel or officials of the district.

If any interested person is dissatisfied with the action of the board of directors in connection with the adoption of any rule or regulation or in connection with the establishment of any rates or charges such action may be presented to the board of review by such interested person. Any person desiring to request review of an action by the board of directors shall file a request for review in writing either on forms provided by the district or in such other written form as will give the district adequate notice of the nature of the request, the action which it is requested be reviewed, the reasons for such request, the name, address, and telephone number of the person requesting review, and whether such person is represented by an attorney or other person and the name, address and telephone number of such representative. The request shall be filed with the secretary of the district and shall be

filed not later than five days after the subject action is taken by the board of directors. Upon filing of a request for review the action of the board of directors to which the request relates shall be suspended and have no further effect until five days after either the board of review has approved the action of the board of directors or the board of directors has finally reconsidered its action after an order for reconsideration by the board of review.

Upon the filing of a request for review the secretary of the district shall set the matter for hearing by the board of review not later than 20 days after the filing of such a request, provided, however, that the president or secretary of the district shall have authority to extend the time for such hearing for a period not to exceed 30 additional days in the event that it is impractical to obtain a quorum of the board of review during the initial 20-day period. Prior to the hearing the secretary shall publish notice in the district pursuant to Section 6061 of the Government Code, at least 10 days prior to the date set for the hearing. The notice need not set out the nature of the appeal in detail, but shall contain a brief description of the nature of the appeal.

At the hearing the board of review shall hear evidence both written and oral from the person requesting the review and from all other interested persons desiring to be heard. At the conclusion of the hearing, and any continuances thereof, the board of review shall either approve the action of the board of directors or shall order a reconsideration thereof by the board of directors. Action shall be taken by the board of review on a matter brought before it not later than 45 days after the date set for the first hearing by the board of review on the matter. In the event that the board of review orders a reconsideration the board of review shall prepare a report and recommendations and submit the same to the board of directors within five days following the conclusion of the hearing or the final continuance thereof. In the event of an order for reconsideration the secretary shall transmit the report and recommendations to the board of directors and the board of directors shall meet at a regular or special meeting and shall consider the report and recommendations submitted to it and take such action thereon as it deems to be in the best interest of the district.

Upon either approval by the board of review or upon final reconsideration by the board of directors the action of the board of directors shall be final and shall take effect as of the date of the original action of the board of directors.

Nothing herein shall be deemed to deprive any person of any other rights of appeal or review he might have.

Notwithstanding any other provision in this section, in the event that the review process established by this section results in the suspension of an act of the board of directors until the completion of review, and delays the completion of any act required in the law beyond the time in which it should be done, the board shall have a reasonable time within which to act.

Relating to the financing and administration of special fund activities within the State Department of Agriculture

WHEREAS, This session of the Legislature presently has under consideration a substantial number of fee changes which fees finance various self supporting functions within the Department of Agriculture; and

WHEREAS, In the past some fee schedules have not been sufficient to support their particular function and at the same time other fee schedules have produced revenues in excess of the needs of a particular selfsupporting function; and

WHEREAS, Some agricultural industries within the State which pay for these self-supporting functions now are seriously questioning the cost of some of these various programs in terms of benefits derived; and

WHEREAS, It is a distinct possibility that any further increase in some of these fees could well work to the detriment of the producers of these various agricultural commodities in the State; and

Relating to University of California campus in San Joaquin Valley

WHEREAS, Of these four campuses only the San Joaquin Valley campus has not been established; and

WHEREAS, The Master Plan for Higher Education in California recommends that the Coordinating Council for Higher Education and the Regents of the University of California carefully study the needs of the San Joaquin Valley for a campus of the University of California before considering the development of additional campuses in any other area of the State; and

Resolved by the Senate of the State of California, That the Coordinating Council for Higher Education and the Regents of the University of California consider the feasibility of establishing a campus of the University of California in the southern San Joaquin Valley in order that its current and projected needs for educational opportunity at higher levels may be adequately met; and be it further

The amount of the grant as set forth in this section and Section 2020.002 shall be adjusted annually by the State Social Welfare Board to reflect any increases or decreases in cost of living occurring after [January 1, 1962] *June 1, 1963*. In any case where it is found that the need of an applicant exceeds the maximum provided by this section an additional amount of aid shall be paid as provided by Section 2020.002 of this chapter.
